Safety of Students (Fingerprinting Clearance of New Hires)

Policy # 6170

Unless otherwise authorized, the District will not employ or utilize a prospective school employee unless the prospective school employee has been granted "full" clearance for employment by the State Education Department (SED). The District will require a prospective school employee who is not in the SED criminal history file database to undergo a fingerprint supported criminal history record background check. "Criminal history record" means a record of all criminal convictions and any pending criminal charges maintained on an individual by the Division of Criminal Justice Services (DCJS) and the Federal Bureau of Investigation (FBI). The District will obtain the applicant's consent to the criminal history records search.

The SED joined the Statewide Vendor Management System (SVMS) operated by MorphoTrust in conjunction with DCJS for the capture and transmission of the fingerprint application, fee, and digital fingerprint images. The District will use the SVMS as directed by SED. The District will still request clearance for employment, view information regarding an applicant's status, and enter hire/termination dates through SED's Web-based application known as TEACH.

Safety of Students

The District will develop internal building and/or program procedures to help ensure the safety of students who have contact with an employee holding conditional appointment or emergency conditional appointment. These procedures will address the safety of students in the classroom, students attending off-campus activities under the supervision of the District, and students participating in extracurricular and/or co-curricular activities (including sports and athletic activities).

Safety procedures to be addressed include, but are not limited to supervision of the employee holding conditional appointment/emergency conditional appointment as determined appropriate by the applicable building/program administrator and periodic visitations by the building/program administrator to the classroom, program, and/or activity assigned to the employee holding conditional appointment/emergency conditional appointment.

Instruction

SUBJECT: PREVENTION INSTRUCTION

Acquired Immune Deficiency Syndrome (AIDS) Instruction in Health Education

The Board of Education will provide a health education program that will include appropriate instruction for all students concerning Acquired Immune Deficiency Syndrome (AIDS). Accurate information concerning the nature of the disease, methods of transmission, and means of prevention will be provided in an age-appropriate manner, and will be consistent with community values and will stress that abstinence is the most appropriate and effective premarital protection against AIDS.

A representative community advisory group consisting of appropriate school personnel, School Board members, parents, religious representatives, and other community members will be established in order to make recommendations for curriculum content, implementation, and evaluation of an AIDS instructional program. Appropriate training will be provided for instructional staff.

No student will be required to receive instruction concerning the methods of AIDS prevention if his/her parent or legal guardian files with the principal a written request that the student not participate in this instruction, with an assurance that the student will receive this instruction at home.

AIDS instruction in the elementary grades will be taught by the regular classroom teachers, while this instruction in the middle and high school grades will be a part of the required health education curriculum.

Hands-Only Cardio Pulmonary Resuscitation and Automated External Defibrillator Instruction

High school students will be provided instruction in hands-only cardiopulmonary resuscitation and the use of an automated external defibrillator. Standards for this instruction will be based on a nationally recognized instructional program that utilizes the most current guidelines for cardiopulmonary resuscitation and emergency cardiovascular care issued by the American Heart Association or a substantially equivalent organization, that are consistent with the requirements of the programs adopted by the American Heart Association or the American Red Cross, and that will incorporate instruction designed to:

- a) Recognize the signs of a possible cardiac arrest and to call 911;
- b) Provide an opportunity to demonstrate the psychomotor skills necessary to perform hands-only compression cardiopulmonary resuscitation; and
- c) Provide awareness in the use of an automated external defibrillator.

The Committee on Special Education or a Multidisciplinary Team, in accordance with Section 504 of the Rehabilitation Act, may determine, on an individual student basis, if a student with a disability should be excused from the requirement for instruction in hands-only CPR and the use of AEDs.

Instruction

SUBJECT: PREVENTION INSTRUCTION (Cont'd.)

Substance Abuse - Prevention Instruction

The Board of Education recognizes the need to educate students on the hazards of alcohol, tobacco, and drug abuse. An educationally sequential health prevention program, utilizing, as appropriate, community, staff, and student input, will be developed to inform students of:

- a) Causes for substance abuse;
- b) Physical and psychological damage associated with substance abuse;
- c) Avoidance of alcohol, tobacco and drugs; and
- d) Dangers of driving while under the influence of alcohol or drugs.

Environmental Conservation Instruction

The Board of Education supports and encourages the development of a District-wide, articulated curriculum of environmental conservation integrated into other program disciplines.

Fire and Arson Prevention/Injury Prevention/Life Safety Education

The Board of Education directs the administration to provide instruction in fire and arson prevention, injury prevention and life safety education relating to protection against injury or death and property loss or damage as a result of criminally initiated or other preventable fire.

This instruction will include materials to educate children on the dangers of falsely reporting a criminal incident, an impending explosion or fire emergency involving danger to life or property, an impending catastrophe, or a life safety emergency.

The Board of Education directs the administration to provide this instruction for all students for a period of not less than 45 minutes in each month that school is in session.

Student Safety

Instruction in courses in technology education, science, home and career skills, health and safety, physical education, and art will include and emphasize safety and accident prevention.

Safety instruction will precede the use of materials and equipment by students in applicable units of work in the courses listed above, and instructors will teach and enforce all safety procedures relating to the particular courses. These procedures will include wearing protective eye devices during appropriate activities.

Instruction

SUBJECT: PREVENTION INSTRUCTION (Cont'd.)

Emergency Planning

The District will maintain updated plans and operating procedures to be followed in the event of natural or manmade disasters or enemy attack. Students will be provided instruction to respond effectively in emergency situations.

Instruction on Prevention of Child Abduction

All students in grades K through 8 in District schools will receive instruction designed to prevent the abduction of children. This instruction will be provided by or under the direct supervision of regular classroom teachers and the Board of Education will provide appropriate training and curriculum materials for the regular classroom teachers who provide this instruction. However, at the Board's discretion, this instruction may be provided by any other public or private agency.

The Commissioner of Education will provide technical assistance to assist in developing curricula for these courses of study which must be age appropriate and developed according to the needs and abilities of students at successive grade levels in order to provide awareness skills, information, self-confidence, and support to aid in the prevention of child abduction.

For purposes of developing these courses of study, the Board of Education may establish local advisory councils or utilize the school-based shared decision making and planning committee established under the Commissioner's regulations to make recommendations concerning the content and implementation of these courses. Alternatively, the District may utilize courses of instruction developed by consortia of school districts, boards of cooperative educational services, other school districts, or any other public or

private agency. The advisory council will consist of, but not be limited to, parents, school trustees and Board members, appropriate school personnel, business and community representatives, and law enforcement personnel having experience in the prevention of child abduction.

Instruction on Child Development and Parenting Skills

Instruction regarding child development and parenting skills may be offered by the District. The curriculum will include instruction on the consequences and prevention of shaken baby syndrome, which may include the viewing of a video presentation for students in secondary schools.
